

Create

CLEAN ENERGY With your food waste

HOW IT WORKS

● A SOLUTION TO THE HAZARDS AND BURDENS OF FOOD WASTE DISPOSAL AND STORAGE.

● A FREE SOURCE OF COOKING ENERGY.

● A FREE SOURCE OF BIO FERTILISER FOR GROWING FOOD.

● A BETTER ROUTE TO SUSTAINABILITY TURN A PROBLEM INTO A SOLUTION.

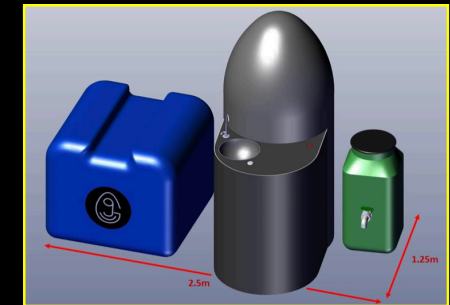

MyGug is the complete solution to food waste issues for food business. Using our innovative technology and the natural process of anaerobic digestion, our system will take 99% of food waste and convert it into natural gas for cooking and a rich bio fertiliser for growing food.

MyGug is designed to enhance all outdoor spaces with an aesthetically pleasing design and easy installation. It is an all weather unit operating efficiently in all seasons, providing clean energy for your business.
